## ABOUT

I am an enthusiastic developer, with a main focus on the backend of various applications. During my first work experience I worked with different programming languages and frameworks. Besides the practical aspect of the job, I also experienced that a good functional team is very important. As a team player I would like to work in a dynamic work environment and grow with the company.

## CORE QUALIFICATIONS

### Programming languages

PHP  
MySQL  
Html  
CSS  
JS
